

## MOVING ON UP ON PHASE 10

This month, we finished out 2<sup>nd</sup> floor framing on the first two buildings of Phase 10. This is a huge accomplishment as it opens the door for the professional framers to come in and swing our roof trusses. The more progress we make, the quicker we will get our roofs dried in and ready for winter! Additional accomplishments were made with the electrical team this month. All 8 homes had their service lines pulled by our awesome team of volunteer retired electricians and lead electrician Scott Archuleta. We are so appreciative of everyone on this team and the hard work they put in on our Habitat homes.

The team will now focus on getting the second two buildings of Phase 10 caught up on progress. This will entail installing joists, beams, subfloor, SIPs, and interior walls! Hopefully we can get this all done before the snow touches down in Gypsum!

*2<sup>nd</sup> floor walls complete!*

*George and Jim help feed wire to each building*

## FOUNDATIONS NEARLY DONE ON PHASE 11

More progress was made on the underground work of Phase 11 this month. The team successfully poured all of the foundation walls this month getting us ready for backfill and framing!

*Completed foundations ready for waterproofing and backfill*

**THANK YOU!**

## WANT TO JOIN OUR TEAM?

Good News! The Construction Team is hiring! We are looking to grow our construction team as we try to build twice as many homes at Stratton Flats this year! As a construction crew leader, you get the opportunity to see all that goes into the construction of a Habitat home, work along side our community volunteers, and be a part of our mission of building affordable homes. What's not to love?

If you're interested, please visit our website [www.habitatvailvalley.org](http://www.habitatvailvalley.org) or email [jobs@habitatvailvalley.org](mailto:jobs@habitatvailvalley.org) to learn more!
