

PHASE 11 AT THE FINISH LINE

The Phase 11 homes at Stratton Flats are nearly finished. Four of the homes were sold to their Habitat owners and moved into during February. The remaining four units are in the final stretch of construction. This month, cabinets and countertops were installed as well as finish hardware and final touches. Gallegos generously donated material and labor on these eight countertops, like they have for over 30 Habitat homes before! All that remains is carpet and then these homes will be move-in ready! We are eager to have eight more homes filled with Habitat homeowners in Stratton Flats!

THANK YOU!

First Phase 11 Homeowners closed on their homes this month

IK BAR DIGGING BEGINS

This month, excavation has begun at IK Bar! Building permits were received in early February which allowed our excavation subcontractor, JV Excavation, to begin work. Juan Villegas, the owner of JV Excavation, alongside his son, Alex, have been long time supporters of the Habitat mission. Juan has helped dig over 40 Habitat foundations and he does large portions of his work free of charge, donating his skilled time to lower costs for our Habitat families. We could not do what we do here at Habitat Vail Valley without the generosity of JV Excavation!

All of the excavation work this month will lead into concrete foundation work next month. This is all in hopes that we will be ready for framing and volunteers in early April!

THANK YOU!

SUPPORT HABITAT!

Supporting the Habitat mission takes many forms. We welcome volunteers of all skillsets, material and services donations and discounts, and many other forms of help. If you are interested in supporting Habitat home building, please reach out to kelsie@habitatvailvalley.org.

March Volunteering

The jobsite will shut down in March while the team transitions between Stratton Flats and IK Bar.

Please visit our website to see when volunteer shifts will open back up!
