

## HEADS UP! WE'RE MOVING!!

*The Habitat Construction Operation will be moving to IK Bar*

Starting in April, all Habitat volunteers and contractors will be working at the IK Bar Construction Site.

### *Driving Directions to Parking:*

- Drive South on Valley Rd from Gypsum
- Turn right onto Grundel Way.
- Just after passing Red Hill Elementary School, turn left into the fenced in parking area over a large yellow track mat at the entrance to the parking area.
- Park on the left/east side of the parking area.

### *Walking Directions to Site:*

- To walk to the construction site, exit the parking area and turn right onto Grundel Way.
- Continue to walk down the street until the first sidewalk on your right (Bison Lane).
- Continue south on that sidewalk for approximately .25 miles until you see the construction area with the Habitat fence.
- Look for the trailer marked "Volunteers Welcome"

\*There is no street parking available on Bison Lane, you must use the designated parking area.

## IK BAR COMING OUT OF THE GROUND

Building A at IK Bar is off to the races! In March, the remaining excavation on Building A took place to get ready for concrete. Juan and Alex Villegas, of JV Excavation, helped dig and prepare the ground for footers. From there, Jose Reyes and the rest of the DGO Concrete team took up the charge! The team formed and poured the footers for all five units of the first five-plex building, Building A. They are now working on forming foundation walls. Both JV Excavation and DGO Concrete are tremendous partners to Habitat Vail Valley, providing their expertise with a significant donation of time and labor! Next month, they will complete the slab-on-grade foundation system on Building A and our team will begin framing in earnest!

*Building A Foundation Walls Formed*

**THANK YOU!**

**DGO**  
**Concrete**

*Jaeda helps move tools to IK Bar*

### **April Volunteer Help Requests:**

#### Technical:

- Framing Interior Walls

#### Non-Technical:

- Installing SIP Panels
- Installing House Wrap
